Technical Job Opportunities in Our Area & How to Prepare

West Virginia Northern Community College and the Weirton Chamber of Commerce have joined forces to provide a special presentation that will deal with the needs of, and opportunities for technical job training in our area. Curt Hippensteel from WVNCC will discuss the variety of technical degree programs that are available and the jobs that need them. Those in attendance will be encouraged to provide insight into their job needs and the experience and education needed to get those jobs. Everyone will leave with a better understanding of the jobs and their training needs that will be coming with the anticipated growth in industrial activity our area will see.

The presentation will take place on Tuesday, June 25, 2019 at 12:00pm on the Weirton Campus of West Virginia Northern Community College. Please call the Weirton Area Chamber of Commerce to RSVP at 304-748-7212.

Come join us and be part of this important conversation!
