

We at **Harvey Goodman Realtor** take the health and safety of our clients, agents and the general public very seriously. For that reason, we have doubled down with cleaning efforts—sanitizing our office door handles, equipment, light switches and furniture daily with Lysol and other disinfectant cleaning products. We are still open for business but understand if people would prefer interacting with us via phone, text or email. Be assured that we will bring cleaning products with us to houses our agents show for surfaces we and our buyers touch, and encourage our sellers to keep surfaces as sanitary as possible. You can reach our agents at any time by using the following information:
